About the Saita Verse

The Saita Verse was created with the goal of introducing and teaching the world about crypto currencies through gamification.

We hope to achieve this by creating a fun, safe and friendly universe where the players learn and interact with Saita Verse and its player-based economy, backed by the foundation and stability of BTC through the pairing of WBTC.

Vision
To reward crypto participants for learning about and impowering their own crypto future through gamification.

SaitaBit

SaitaBit is an ERC-20 governance token backed by WBTC designed specifically for the Saita Verse.

Saita holders will be able to receive Saita rewards as they participate and play in game.

Saitabit will be able to be used in game to purchase upgrades and special items as well as staking for other selected crypto currencies.

Why WBTC?

From the wild year of 2022 with the fall major crypto chains and exchanges we at Saitabit feel one of the main hurdles for Defi and Crypto as a whole is the centralisation of exchanges.

So, we utilised WBTC to promote self-custody of BTC while have the ease of use of an ERC-20 token.

Fair Launch.

Having Participated in numerous fair launches over the years we have come to the conclusion that they are not very fair at all.

Most coins Launch at a time only known to a select few that buy up the majority of the coins at a fraction of the price then proceed to dump on new comers.

To try achieve the fairest of fair launches and prevent a pump and dump we are going set up 3 wallets for participants as well as have set time and countdown.

The wallets will be capped at Tiers, with the amount that one can participate set and the rate they will distribute capped.

The wallets will be caped at a 60x distribution total over 12 months with a minimum of 1/12th and a maximum of 5x each month.

Tier 1   Founders Capped $100 000.

Tier 2   Capped at $400 000.

Tier 3   Capped at $400 000.

Tier 4   Capped at $400 000.

Disclaimer Fair Launch.

Stacking.

At Saitabit we believe Community is key to the world and Crypto, so we have developed our staking to work alongside other great and likeminded Crypto communities.
It has been designed on the bases of being feasible and sustainable to provide the best long-term incentives to all holders.

The Game SaitaVille

SaitaVille will be a game of loyalty, and growth. Link your wallet and watch your home grow, the longer you Hodl and the bigger you grow your bag the greater your Saita domain will be. Receive generous rewards for spreading the Saita Love.

The Saita Highway – How to on board.
At Saita we believe in simplicity. That's why we have designed the Saita Highway to make it as easy as possible to buy SaitaBit and when the time comes exchange your SaitaBit for some Good old BTC.

NFT Generator
Build your own avatar and turn it in to an NFT, then have your NFT character generated in game.

SaitaBit
